

WG task Planning of Hazardous Substances screening in Estonia and Lithuania

Zita Dudutytė,
Baltic Environmental Forum Lithuania

16-17 April, Vilnius

Goal

- To come up with the idea of preliminary list of HS, sites, matrixes for HS screening in your country
- Plan the screening exercise from management point of view

To work on...

Outline scope of screening

- Estimate approx. number of analysis
- Discuss HS for screening – which and why?
- Discuss sites – which and why?
- Discuss matrixes
- How to distribute analysis among 2 rounds? Why?
- Distribute money for screening and source tracking

To work on...

Plan management part

- Who, what, how, by when?

Keep in mind:

- national meetings in June
- Baltic meeting in September
- detailed planning of screening exercise must be ready by the end of this year
- laboratories subcontracted

Questions to be clarified/ information to be collected in order to make final decisions?

What you have available?

- Budget:
 - Estonia: EERC – subcontracting 50 000 Eur, analytical accessories 40 000 Eur
 - Latvia: LIAE - subcontracting 90 000 Eur, analytical accessories 5000 Eur

Remember: this sum is not only for screening but also for source tracking!

- GALAB proposal (prices)
- Criteria from LIT and FIN exercises
